# Customer Services Guide

Your Guide to a Better Experience with EWA Services

At the Electricity and Water Authority (EWA), we are continuously enhancing your experience and making it easier for you to access our services. This is why we offer this comprehensive guide, which includes all the information and requirements for all beneficiary groups of our services.

This guide serves as a complete reference, offering you detailed information about our available services, including the available channels where you can benefit from these services. It covers all the procedures, requirements, and conditions to ensure you can easily and conveniently utilize our services.

We use modern technology and advanced systems at the Authority to deliver digital services that are accessible to all customers through various digital channels. We also provide smart electronic services targeting all customers, alongside other diverse channels such as visiting service centres, virtual centres, and home visits for senior customers and people of determination.

Please note that while this guide provides all the documents and requirements for EWA's customer services, some information may be subject to change.

# Customer Service Channels

---

We offer a variety of channels to efficiently deliver our services, ensuring you receive quick and effective support:

**EWA Website:** You can view all the details of our available services through our website **[www.ewa.bh](http://www.ewa.bh)**.

**Kingdom of Bahrain's National Portal:** We offer various electronic services through the National Portal of the Kingdom of Bahrain, where our customers can submit their applications via **[www.bahrain.bh](http://www.bahrain.bh)**.

**Benayat Portal:** You can submit new connection requests for electricity, water and renewable energy services through Benayat portal website **[www.benayat.bh](http://www.benayat.bh)**, by contracting with licensed engineering offices.

**Virtual Centre:** You can utilize our services through a 'Video Call' without the need to visit a service centre, by pre-booking an appointment through **Skiplino** app.

**Customer Service Centres:** You can visit one of our service centres and utilize our services by pre-booking an appointment through **Skiplino** app.

**Call Centre:** You can contact us 24/7 via our call centre at **17515555**.

**Home Visits:** Senior customers and people of determination can easily utilize our services by booking a home visit appointment through our call centre at **17515555**.

# Useful Tips

## New Connections and Renewable Energy

For new electricity, water, and renewable energy connections, customers must contract with a licensed engineering firm to submit their application through the "Benayat" portal. This portal handles building permits and new service connections for electricity and water.

Following the engagement with the licensed engineering firm, several procedures will be completed before the service is connected. The firm will submit the application, attach all required documents and engineering drawings, and obtain necessary approvals from relevant authorities to finalize the connection.

## Government Subsidy

The government subsidy for electricity and water services is provided to Bahraini citizens for one account only. The following conditions apply:

- The account holder must be a Bahraini citizen registered as a head of household with Information & eGovernment Authority (iGA).
- The account holder's address registered with EWA must match the address registered on their ID card with iGA.

For details on government subsidy eligibility for different categories, please [click here](#).

## Transferring Accounts of Deceased Individuals

- After the death of the electricity and water account holder, it is necessary to update the information and transfer the account to another individual or cancel it.
- Government support for electricity and water services is automatically withdrawn following the account holder's death, based on updated information in the Information Authority and eGovernment.
- The Authority allows a period of up to 3 months to reclaim government support retroactively for subsidized accounts, provided that the account information is updated within the same period.
- Updating the information can be done through the "Open Electricity and Water Account" service.
- For more details, please visit our website [www.ewa.bh](http://www.ewa.bh)

## Fixed Monthly Direct Debit Service and Payment Channels

### Fixed Monthly Direct Debit Service

This service allows a fixed monthly amount to be automatically deducted for bill payments. The amount is calculated based on the average monthly bill throughout the year.

This helps customers manage their finances by paying a fixed monthly amount, without being affected by changes in consumption throughout the year, especially during the summer period.

Customers can register for the service through our website: [www.ewa.bh](http://www.ewa.bh)

### Other Payment channels

You can also make payments through our other electronic channels:

- EWA Website
- EWA App  
- National Portal
- BenefitPay App "Fawateer Service"
- Electronic cheque
- stc Pay

# External Documents Reference

Through this reference list you can identify the entities responsible for issuing some of the required documents to complete your services.

Document	Issued by
Lease contract registration receipt	Ministry of Justice, Islamic Affairs and Waqf
Religious ordinance document	Sharia Court
Title deed	Survey and Land Registration Bureau
Sale contract	Ministry of Justice, Islamic Affairs and Waqf
Building permit	Ministry of Municipalities Affairs & Agriculture
Aerial map	Survey and Land Registration Bureau
Address certificate	Information & eGovernment Authority
Survey certificate	Survey and Land Registration Bureau
No objection certificate for electricity connection	Ministry of Municipalities Affairs & Agriculture
Demolition certificate	Ministry of Municipalities Affairs & Agriculture

# Open Account Service

Use this service to register an electricity and water account in your name if you need to activate electricity,

# Distributed Renewable (Solar) Energy Service

## Application Channels

 Benayat

Use this service to benefit from the solar energy PV systems by connecting your premises to the national electricity grid. When excess energy is produced, the excess will be credited to your bill, helping to reduce your electricity costs and promote the use of renewable energy. This service is offered under an agreement with a licensed engineering office (consultant).

<b>Service fees</b>	No Fees
<b>Processing time</b>	8 working days

### Service procedures

- 1 Assign an EWA-approved solar PV contractor and consultant
- 2 The assigned contractor submits the application through the "Benayat" platform, attaching all required documents
- 3 The assigned consultant reviews the application, ensures all requirements are met, and approves it via the platform
- 4 EWA technically reviews the application, and upon approval, conducts a field inspection of the system
- 5 After a successful inspection, the system is connected to the national electricity grid

# Change Water Connection Size

Use this service if there is an increased demand for water usage in your premises and you need to change the size of the water connections.
